TO BE DISARMED.

San Francisco, April 26.—Mayor Schmitz has taken a firm stand against "citizens' protective committees," organ-ized in many sections of the city by men who undertake to regulate the af-fairs of their neighborhood. Many com-plaints have been made against these "committees." Responsible citizens "committees." Responsible citizens have been stopped at night and made to explain why they were abroad after dark, and even shots have been fired at dark, and even shots have been fired at persons who had a right to go anywhere they pleased at any hour. It was one of these so-called "vigilance committees" that is to be held responsible for the death of Major Tilden, who was shot while performing relief work. The mayor gave instructions that the members of these "committees" were to be disarmed wherever found by the city police, and if any resistance was offered, were to be treated as looters, which means that they are to be shot without ceremony.

Takes the Matter Into Consideration.

No objection was offered to the grantng of a franchise to the Orange County Telephone company to enter the city, at the hearing before the city council in the court room last night, and it is probable that the privilege will be granted to the company under the same conditions that the Union Telephone company was recently allowed to enter. C. W. Scarff of the New England company, who previously has objected to the granting of new telephone franchises, was present, but offered no objection. He did. however, promise to remedy a grievance which H. N. Chency presented against the New England company.

Mr. Chency stated that poles had been set on his land and wires strung across it until he was thoroughly disgusted. Mr. Scarff declared that he should take immediate steps to investigate and correct whatever abuses his men had com-

> Peter Shepard of West Berlin found the body when he was going to his work at 6 o'clock. He at once notified the authorities and the body was left where it was found. Before the arrival of the selectmen a number of people viewed the remains, but could make no identification. After the selectmen had deliberated as to what to do, the remains were collected in a box and taken to the undertaking rooms of Johonnott & Hall in Montpelier. In one pocket of the clothing was a small book which led the selectmen to believe that he man had worked for a Montpelier

water department and possibly for the Montpelier & Wells River railroad. Judging by the marks on the track and the location of the severed arm, and the location of the severed arm, it is thought that the man was killed by a southbound train, probably the early morning train. Some thought that several trains had passed over it in order to so badly mutilate the body. The place is between bridges 5 and 6, and near the residence of Mrs. Sort-
